Guidance to Mentor’s Letter

1. Please discuss how your Yale undergraduate mentee will be mentored over the summer. In addition to hands on research, how will you foster an intellectually stimulating scientific environment for your mentee?
2. How often will you be meeting your mentee? How will his/her research progress be monitored?
3. Who will be your mentee’s daily mentor? What would this daily mentorship consist of?
4. How will your mentee participate in your lab meetings?
5. Will your mentee present his/her results during lab meeting? Journal clubs?
