

STARS II PROGRAM INFORMATION SESSION

Are you an under-represented and/or first-generation low income student interested in pursuing a STEM PhD degree after Yale?

One-on-one mentoring from graduate students

Workshops designed to prepare scholars to apply to graduate and medical schools

Group activities to increase the sense of community

Financial support for academic year research and scientific conferences

Summer research stipend

Come hear about the STARS II Program from Dean Sandy Chang, Associate Dean of Science and Quantitative Reasoning Education, Yale College and Professor of Laboratory Medicine, Yale University School of Medicine. Meet current STARS II students!
